ALEGREDESIGN

“Design is the intuition of creating
what people expect”

ALEGREDESIGN

Our identity

The market and society are constantly changing, as are we. We create products and experiences, providing value and innovation while creating new future for people.

We inspire change through design.

For twenty years we have faced new challenges in product design on a daily basis. This has resulted in collaborations of great diversity in industrial sectors worldwide. This experience, acquired in each project, allows us to transfer knowledge between industries and cultures.

We want to introduce to you how our studio works, the services we provide and how you and your business can achieve innovative and valuable to enrich people’s life.

Our goals

Seeking new perspectives and ideas, redefining services, products and experiences and creating a new future for people.

What we stand for:

Our pillars:

Our services

Providing innovative products, services and experiences to people and business based on Agile Design and Design Thinking.

▲ Design Direction

Innovative solutions to people and business.

Innovation, value and people are at the heart of our work. The improvement of the business model and the user’s perception are equally important. Which is why we deliver distinctive value propositions that make businesses grow.

Methods:

Innovation Consulting | Venture Design | Product Direction | Corporate Development

● Trend Research

Creating tomorrow’s trends.

Our job as designers is to anticipate what people need and what they will need in the future. We are on a constant lookout for market changes and opportunities. We forecast trends and observe the users’s behavior to make sure our clientes anticipate the market.

■ Product Design

Creating products with real innovation.

We design innovation-based products that create value for people and companies. Bringing a people-centred approach to innovative products that will withstand the test of time.

Concept Creation | Product Refinement | Product Development | Design Pre-Engineering | Final Design Supervision | Launch Process

Opening new ways

This way to approach products opens up new ways to work. This new approach is based on short deliveries which add value to the product in each sprint, creating the synergy to develop the next parts of the project.

Different kind of deliveries starting from the same point:

- Design Direction 
- Trend Research 
- Product Design 

Our reach

Through the industrial sector we provide knowledge to our clients.

For twenty years we have faced new challenges in product design on a daily basis. This has resulted in collaborations of great diversity in industrial sectors worldwide.

Childcare

All for them

When we approach a project for children, their well-being is the most important factor. As well as the comfort and safety of all those people, spaces and situations around them.
