"Design is the intuition of creating what people expect"

ALEGREDESIGN

Since 2002 <u>www.alegredesign.com</u> info@alegredesign.com

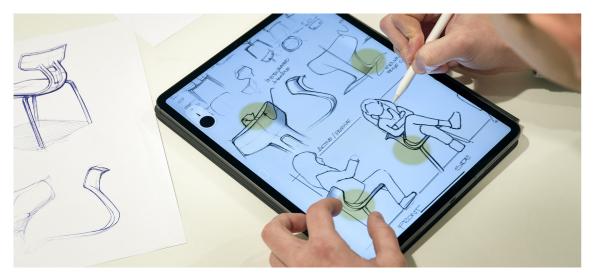

Our identity

The market and society are constantly changing, as are we. We create products and experiences, providing value and innovation while creating new future for people.

We inspire change through design.

For twenty years we have faced new challenges in product design on a daily basis. This has resulted in collaborations of great diversity in industrial sectors worldwide. This experience, acquired in each project, allows us to transfer knowledge between industries and cultures.

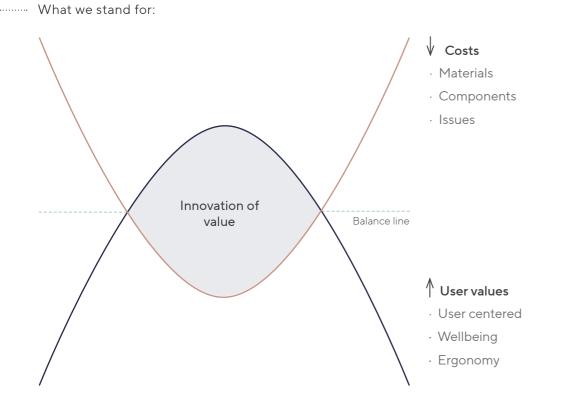

We want to introduce to you how our studio works, the services we provide and how you and your business can achieve innovative and valuable to enrich people's life.

Our goals

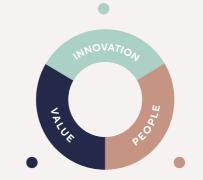

Seeking new perspectives and ideas, redefining services, products and experiences and creating a new future for people.

Opportunities, perspectives and vision

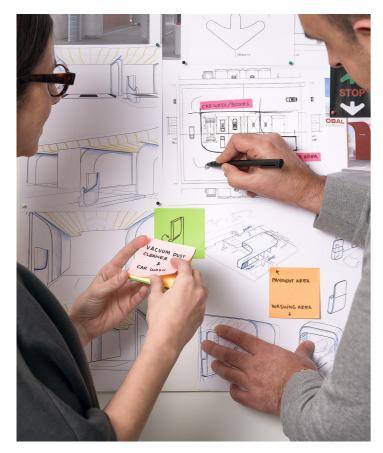

Cashflow, singularity and growth

Expectations, user centered and needs

Our services

Providing innovative products, services and experiences to people and business based on Agile Design and Design Thinking.

▲ Design Direction

Innovative solutions to people and business.

Innovation, value and people are at the heart of our work. The improvement of the business model and the user's perception are equally important. Which is why we deliver distinctive value propositions that make businesses grow.

Methods:

Innovation Consulting | Venture Design | Product Direction | Corporate Development

Trend Research

Creating tomorrow's trends.

Our job as designers is to anticipate what people need and what they will need in the future. We are on a constant lookout for market changes and opportunities. We forecast trends and observe the users's behavior to make sure our clientes anticipate the market.

Product Design

Creating products with real innovation.

We design innovation-based products that create value for people and companies. Bringing a people-centred approach to innovative products that will withstand the test of time.

Trend Forecasting | User Insights | CMF Design Concept Creation | Product Refinement | Design Finalization | Design Pre-Engineering | Final Design Supervision | Launch Process

Opening new ways

This way to approach products opens up new ways to work. This new approach is based on short deliveries which add value to the product in each sprint, creating the synergy to develop the next parts of the project.

Different kind of deliveries starting from the same point:

Childcare All for them

When we approach a project for children, their well-being is the most important factor. As well as the comfort and safety of all those people, spaces and situations around them.

Combi | Suavinex | Katzden | Micuna | Minimoi

Consumer Electronic Best experience

Our vision of electronic products is to create products and experiences where we integrate electronics into everyday products, improving the user experience based on design thinking.

Weon | PlanetUs | Bq | Eyesynth | Domoalert

Living Timeless products

We enjoy imagining products and setting trends. For the home, we design decorative furniture that not only innovates in aesthetics but also in its technological development

Emuca | Punt | B&V | Faro Barcelona

Facilities Guest wellness

We understand furniture design for public spaces as an interaction between the people who use it, the space where it is placed, the space where it is stored and the experiences it evokes.

Mobility Urban challenges

Creating projects focused on transport over short, medium and long distances, supports us to continue reflecting and innovating in this new era. We strive to create innovation and value that serve people.

Istobal | Katzden Architec | Pbike | Actiu

Healthcare The next step

Our first aim when we create medical products is to create a healthy bond between the patient and the treatment, guaranteeing the practitioner's ergonomic comfort.

Takara Belmont | Andromedical | Millermaimann

Our methods

Improving your company with our tools, developing innovation and giving value to people. Based on Design Thinking and Agile Design.

KATZDEN

Companies expand their horizons and establish themselves in new markets while we find solutions for future challenges.

Our team

Strategic design company committed to innovating by giving value to people.

Common Sense

We understand design as a global concept which is not only applied to style, but that can can also be utilized to give realistic solutions for the product's lifespan: right from the production process itself, to the sustainability, the user interface and its environmentally-friendly materials.

Knowledge: New solutions and uses

For twenty years we have faced new challenges in product design on a daily basis. This has resulted in collaborations of great diversity in industrial sectors worldwide. This experience, acquired in each project, allows us to transmit knowledge between industries and cultures.

Originality

Our added value is the ability to utilize our originality, efficiency and expertise to increase our clients worth. We work on all the areas of the product and study its productive chain, which enables us to provide creativity and solutions in all the stages of the design process.

Your Benefits

Together we create real products, services and experiences in order to expand market advantages through innovative design solutions.

We aim for innovation, that adds real value for people and companies.

National and international knowledge experience.
